Celebrating it's 75th Anniversary

April 2010

The Worcester County Personnel & Guidance Association wanted someone special to help us kick off our 75th Anniversary Celebration and we certainly found the right person in Bill Corbett, of Cooperative Kids. For two hours, we laughed, learned and were totally engaged by Bill's material, presentation, delivery and professionalism. His ability to hold his audience, mixing demonstrations, with visual and auditory media, was remarkable!

Comments from the audience were "outstanding", "very Interesting and topical", "well worth the money!", and the most significant " I appreciated the reminder about finding my purpose and helping children find theirs!". Bill's books and tools for helping parents, as well as educational staff are well worth the investment.

Bill is very easy to deal with, accommodating to the needs, purposes and wishes of any group. Parent groups would especially benefit from his light-hearted but thoroughly useful and practical approach to helping improve home atmosphere, discipline solutions for parents, and alternatives to more traditional child-rearing tactics employed by parents.

It was our pleasure to host Bill, a speaker who reaches everyone in the room.

Sincerely,

Cynthia Stark, Co-President

Worcester County Personnel & Guidance Association
